To The Board of the
“Kinderhilfswerk Himalaja”

Yerevan, 31.01.2018

Dear Board Members of the “Kinderhilfswerk Himalaja”,

We are writing to extend our hearty “Thank you” for your continuous support to Direct Aid Association (DAA) institutions and projects that are essential to the paediatric patients on treatment in Arabkir MC&ICAH and the paediatric department of the Haematology hospital. The majority of DAA beneficiaries are paediatric patients whose families often are in great financial and social need. Thus, especially during the treatment period when the family faces the hardship of finding money for the costs related to the treatment they are unable to provide for other services such as accommodation away from home (in case the family is not from Yerevan) and schooling.

In DAA we take care of such patients through three institutions and a number of programs. Two of these institutions: the hospital school service providing education and the Patients Family House providing accommodation and other related services are supported by the “Kinderhilfswerk Himalaja” in 2018.

We at DAA as well as our beneficiaries highly appreciate your support to our hospital school and the PFH. The financial support of USD 42’000 which we received on the DAA account on January 09, 2018 will enable us to continue providing educational services, temporary shelter and adhesive services to the patients in need.

The mission of DAA, local non-governmental organization, is to provide education including schooling and arts, psychological and social support as well as temporary shelter mainly to pediatric patients and their care providers from underprivileged families who are on treatment at Arabkir MC&ICAH and the paediatric department of the Haematology hospital.

Yours sincerely,
Hasmik Tadevosyan
Direct Aid Association President
